---

January 2012

Dear Clients,

The marina was busy last year with more boaters and more wind as the direction was abnormally from the east. Our outer docks definitely suffered and will be repaired by spring. Thanks to your co-operation we can keep our summer rates lower by offering empty slips to visiting boaters. Please let us know when you are leaving for any trips so we can provide this transient service.

## Spring/Summer 2012

Please find enclosed our 2012 Summer contract. Due to our transient availability and having had a good boating year, we are able to provide a reduced increase in rates. For **returning customers the price of \$50/ft.** (only a \$1 increase) for the summer season will apply, and for **new customers the rate of \$52 per ft.** for the 2012 summer season will apply. As you might know, Confederation Basin's 2012 price is over \$62/ft. with Portsmouth Harbour over \$59/ft. If you are returning this summer please submit the form with payment by **March 8, 2012** to confirm your slip. **Please include your e-mail address.** Past year slips cannot be guaranteed after this date. If you know you are **not** returning this season please call, or leave a message to let us know, it would be appreciated.

**Parking:** Along with the excitement of more boats comes more people and more cars. The city has been very generous not to ticket cars parked in the city park near the docks. The marina would like to accommodate the city by not parking on the grass on Wednesday's to allow for easy grass cutting.

**Insurance:** It is the policy of the marina that all boat owners have proper coverage on their boat while at the marina. Proof of insurance will need to be presented before any slips will be assigned. It may also be useful for owners to know if their policy covers oil spills. Please keep your bilges clean as even the smallest of spills can be expensive. **Please see the attached pages for current insurance information as these pages need to be filled out and returned to the marina along with the summer application.**

**Rules & Regulations:** As more people enjoy the marina it is important for all clients and guests to know the rules and regulations. Please take time to read the back of the 2012 contract as some additional regulations have been written.

We hope the weather gives us an early start to the 2012 boating season.

Sincerely,

Sandy Crothers  
Marina Manager
