

# IMPORTANT NOTICE

Please complete the included Watercraft Insurance Confirmation form along with the 2012 summer agreement form if you are intending to return to the marina.

Please ask your broker or insurance company for assistance if needed.

Your policy must include the following...

1. A minimum liability limit of \$1,000,000
2. Confirmation of Wreck removal coverage
3. Confirmation of Pollution liability coverage

Third party liability only, is not sufficient. Customers who leave their boats in the water through the winter must inform their insurer that they are waiving their 'lay up warranty'. This information means that the boat will not be on-land and that the proper in-water winter insurance is needed which still needs to include the above 3 items. Boats on land through the spring, summer and fall months still need to be insured, please return forms as usual.
