# *KingFisher 28 Patrol*

## **A Cost-Effective Blue Water Work Boat**

The KingFisher 28 Patrol is the most cost efficient way to get your enforcement people offshore. The hull structure is based on the proven construction method developed for the KingFisher 22, which features a box-section girder structure that reduces costs while increasing hull rigidity. The KF 28 is the newest vessel in this series, applying the efficiency of the construction method to a heavy-duty rough weather working platform.

The vessel pictured here was built for the Ontario Ministry of Natural Resources for fisheries patrol and enforcement on Lake Huron. Operating conditions called for a hull which can operate in high wave conditions, and provide a safe working environment for operators in an extended season with extended range. Equipped with a pair of Volvo KAD31 DuoProps, the vessel planed quickly and reached 32 mph fully loaded. The low freeboard aft is ideal for net hauling or working over the side. The squared-off bow allows for boarding or lets the workboat act as a push vessel.

# KingFisher 28 Patrol

## Specifications

Length Over All	28'
Beam	8' 6"
Vessel Weight	8,500 lb
Power range	up to 600 hp
Speed @ 300 hp	37 mph
Vessel Draft	18"
Vessel Capacity	3,000 lb
Fuel Capacity (std.)	60 gallons

## Standard Features

- MCM 10-year hull warranty
- Sealed aluminum self-bailing treadplate deck
- MCM box-grid frame (pat. pending)
- 1/4" marine aluminum bottom plate
- 3/16" marine aluminum hull sides
- Welded handrails on foredeck
- Forward cuddy cabin
- Opening engine box with gas struts
- Five oversize towing/mooring cleats
- Standing headroom wheelhouse
- Weathertight, lockable aft door
- Pre-rig package of deluxe controls and gauges
- Twin deluxe helm seats
- Hydraulic steering
- 80-gallon internal fuel tank
- 2,000 gph automatic bilge pump
- Full-length grounding bar/keelson

## Optional Features

- Propulsion options: twin or single IO or OB Waterjet
- Tow bits, removable push-knees
- Full camper back
- full galley
- Marine head and holding tank
- Additional seating/storage lockers
- Electronics to customer specification
- Swim platform, dive ladder
- Scuba tank rack
- Fuel tank up to 120 gallons
- Docking lights/spot lights
- Cabin heating & defrost options
- 110 Volt/Shore power options
- Radar Arch/Light Bar
- Winch & davit
- Net hauling gear
- Electronics: Radar, VHF, GPS, depthsounder, etc.
- Walk-through transom door
- Removable aft-deck railings
- Paint to customer spec
- Squared-off bow
- Interior lighting options
- Cabin insulation options
